SUMMARY

I'm a dedicated and aspiring front-end developer 🚀. With a strong foundation in REACT, JavaScript, HTML, CSS. I'm eager to tackle web development projects. Although I may lack extensive professional experience, my passion and commitment shine through, ensuring visually stunning and user-friendly websites. Let's embark on this journey together and create remarkable digital experiences! 🚀

EXPERIENCE

Frontend Engineer

Mylo

November 2023 - April 2024, Gurugram, India

- Developed a fully functional React Chat Application featuring online statuses, real-time messaging, image support, and multiple chat rooms.
- Enhanced user experience with read receipts, sound notifications, and a visually appealing interface using **CSS**, **React Hooks**, and **Props** for a scalable architecture.
- Integrated React Chat Engine to utilize WebSockets for seamless, real-time communication.

Quality Automation(QA) Engineer

Mylo

January 2023 - November 2023, Gurugram, India

- Developed and executed comprehensive test plans, test cases, and test scripts for web and mobile applications.
- Collaborated closely with cross-functional teams, including developers and product managers, to identify, report, and resolve defects in a timely manner.
- Played a pivotal role in improving product quality, resulting in a 20% reduction in post-release defects reported by end-users.

PROJECTS

WorkoutWise(Fitness App)

INTENSE ANYTIME · github.com/coolbeangeeks · January 2024 - February 2024

- Developed a Fitness Exercises App enabling users to browse over one thousand exercises categorized by muscle groups, with practical examples and pagination for easy navigation.
- Integrated exercise details, related YouTube videos, and suggested similar exercises to enrich user experience and provide varied workout options.
- Employed **RapidAPI** to access diverse exercise data sources and implemented advanced React practices, optimizing **file structure** and utilizing **React Hooks** for efficient state management.

Wayfinder(Travel Advisor)

github.com/coolbeangeeks · January 2024 - February 2024

- Developed a Travel Advisor App utilizing Geolocation, Google Maps API, and Google Places API for location-based data fetching.
- Implemented search functionality enabling users to find places of interest and hotels based on desired locations.
- Leveraged Google Maps API for map functionalities, visualizing search results, and enhancing user experience by dynamically fetching API data based on user-selected locations

EDUCATION

Bachelor of Engineering (BE) in Electronics and Instrumentation Engineering

Thapar Institute of Engineering And Technology · Patiala ,Punjab · 2023 · 7.92 CGPA

CERTIFICATIONS

NAMASTE REACT

NAMASTE DEV · 2024

- Completed React Course from Namaste DEV , gaining practical experience in building modern web applications using React, enhancing proficiency in front-end development

SKILLS

TECHNICAL SKILLS: REACT , REDUX ,JAVASCRIPT, HTML, CSS , API ,VERSION CONTROL

DEVELOPER TOOLS : VS STUDIO , GIT, GITHUB
